I have no idea I bought the gold pack ! the game is great allot of fun however the two DLC's for this game according to steam who claims that they both are installed and in my library full metal frenzy & zombie apocolyps ARE NOT IN MY STEAM ANYWHERE OTHER THAN THE MAIN PAGE OF STEAM FOR THIS GAME plain and simple still haven't found any of the DLC I wish I knew where they are sure would like to play them oh well .

The main game is fun a little short but for \$6.99 can't really complain still I wish I knew where those two DLC's are was really looking forwards to Killin some Zombies. A great DLC that introduces new power-ups, vehicles, tracks, events, and a new female announcer. The coolest part is in the sponsored events in the campaign mode, I not only got one of the new game's mode, but many times the car I was using was from the DLC. A great way to make the DLC built right into everything without seeming like an add-on.. Its A Good Game...Fits To My Style Of Gameplay Anyways (Cars and Guns)  
But One Problem I Have Encountered Is That The Game Refuses To Start...(Dont Take This As A Reason To Not Get The Game)

I Do Recommend It To Anyone Who Style Of Gameplay Include: Guns, Cars, Racing, Cars With Guns Etc . The trailer was good. Unless your intending to multiplay, this DLC wont offer you much towards a single player experience.

Excusing the latter this DLC for multiplay while offering a trinket in most departments like cars,tracks etc is a blackmail one as if you dont have it, your instantly barred from certain online events.

It should be case of want but sadly is a case of need for this DLC so its a thumbs down for me on that point.. New cars, new maps, new power ups, new announcer and new game modes. They all integrate nicely into the single player campaign, this is well worth getting in addition to the base game.. Fantastic! I'm liking the arena and vehicles that came with this and the new additional modes. It add more to this action-pack mayhem that keeps you playing more. Plus, its for a decent price!. Awesome DLC!. Rock n Roll Racing on Steroids!. Even though this game isnt one of the "Big Blockbusters" (like CoD or anything like that) this game is made really well. It doesnt have great graphics or absoltely amazing gameplay but some of the big blockbusters forget to just make the game fun to play. Most make games to "challenge" the avid gamer, but what about those who just want to get on every once in a while to have a little fun. This game is fun, addicting, and time friendly, which if you are an avid gamer with other things to do, this is a blessing. I would reccomend this game to anyone from the most avid of gamers to those who have just started.

Extends the generous offer of contents with this DLC, more vehicles to crush, even more tracks, new power ups, game modes and other innovations for a reasonable price. Waiting for the upcoming DLC full metal zombie: D. Great game if you love cars, guns and explosions like a lot of explosions
